

Power the next generation of ARGUS applications.

Introducing **ARGUS Cloud** —
Store, access, and integrate with ARGUS Enterprise data to power the specific needs of your CRE organization.

KEY BENEFITS

Store and back up files in the cloud.

Seamlessly move your organization’s models into a shared cloud database for storage.

Access and collaborate on your files any time.

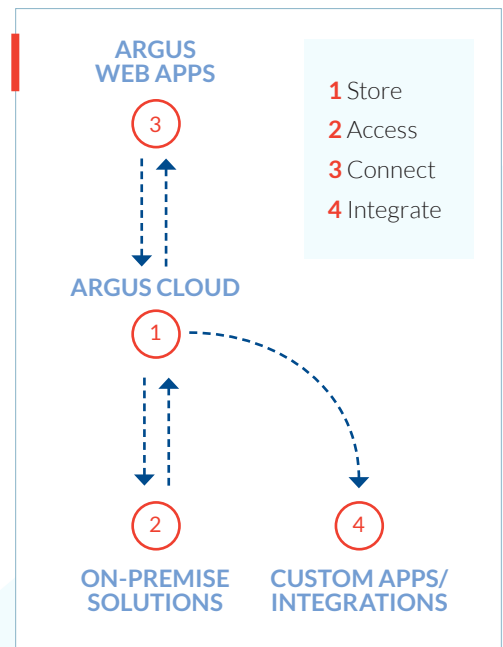

Access your models any time to collaborate on both ARGUS Enterprise and new web applications, regardless of location.

Connect to the next generation of applications.

Use stored data and an industry standard calculation engine to power the next generation of ARGUS applications, beginning with ARGUS Acquire.

Integrate with key systems.

Enable key integrations and send data stored in ARGUS Cloud to key real estate platforms, custom reports and applications.

Powerful tools for any CRE organization.

Day 1 : Storage, access, and apps

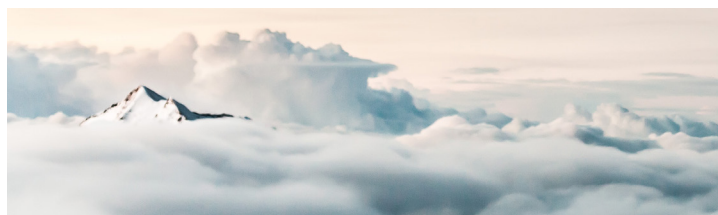

- Access and collaborate on AE files even when outside your organization's network
- Assign 3rd party access to your AE models to easily manage workflows with service providers
- Connect to ARGUS Acquire to seamlessly assign AE models, helping identify and manage pipeline risk

Future release: Fully cloud-based offering

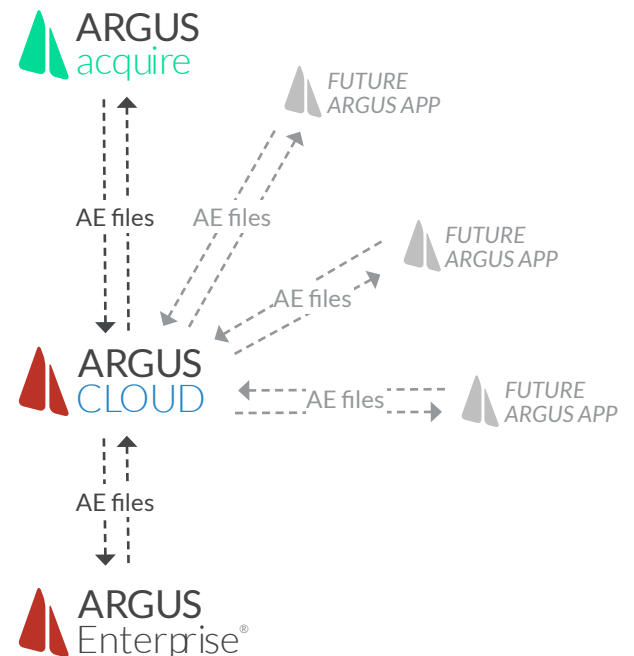

- Move your entire AE instance to the cloud, eliminating time and total cost of ownership
- Map multiple server instances of AE to a single cloud database to simplify infrastructure and maximize efficiency between functional teams
- Easily verify and update to the latest version to take advantage of the latest features and improvements
- Add, remove or manage users right from your account

Future release: APIs & integrations

- Leverage ARGUS APIs to conduct real time integrations of your asset and portfolio data (leases, actuals, budgets, cashflows, etc.) between AE and other core systems
- Access the ARGUS Enterprise data (inputs and results sets) to build custom or real-time reports/applications to fit specific business requirements
- Eliminate additional overhead required to create and maintain custom work using pre-built and managed productized integrations

With ARGUS Cloud, store and pull AE files for easy collaboration between new web apps and AE.
