

Finding the right deals is only the beginning — build a faster, leaner acquisitions team.

Enable your team to efficiently construct sound financial models, pitch winning deal strategies, and meet capital deployment targets with ARGUS Acquire.

KEY BENEFITS

Build a high-performing acquisitions team.

Give your team the tools and insights they need to efficiently build, assess, and execute on pipeline.

Streamline deal and model management.

Leverage configurable team workflows and “what-if analysis” on your deals to reach new heights of efficiency and consistency.

Get a bird’s-eye view on your team’s progress.

Understand your pipeline from the top-down, with the ability to view all of your team’s deals on one landing page.

Leverage the power of ARGUS Enterprise (AE).

Seamlessly link deals to AE models stored in ARGUS Cloud so you can import model KPIs and get a comprehensive view of your deal.

Access your pipeline anytime, anywhere.

With a cloud-based app, you enjoy automatic updates with continuous deployment.

Gain oversight on your team’s deals.

MANAGEMENT LANDING PAGE

ACQUISITIONS TEAM ACTIVITY

Drive efficiency in every part of your process.

Understand the health of your pipeline at a glance

- See all the team’s deals on a flexible landing page, grouped by custom status.
- Rapidly understand and manage performance with at-a-glance pipeline metrics.
- Visualize where the value lies in your pipeline, so you know if your capital deployment target is at risk. Judge the urgency of opportunity screening easily.

Track deal status easily and efficiently

- Anyone on the team can see an up-to-date status on any deal, at any time.
- Drill down into a specific deal’s tasks for more detail on the work that remains to close and any obstacles that must be overcome.
- Store all closed deals in Acquire for an internal comps database that is leaner and smarter than combing through spreadsheets in a shared drive.

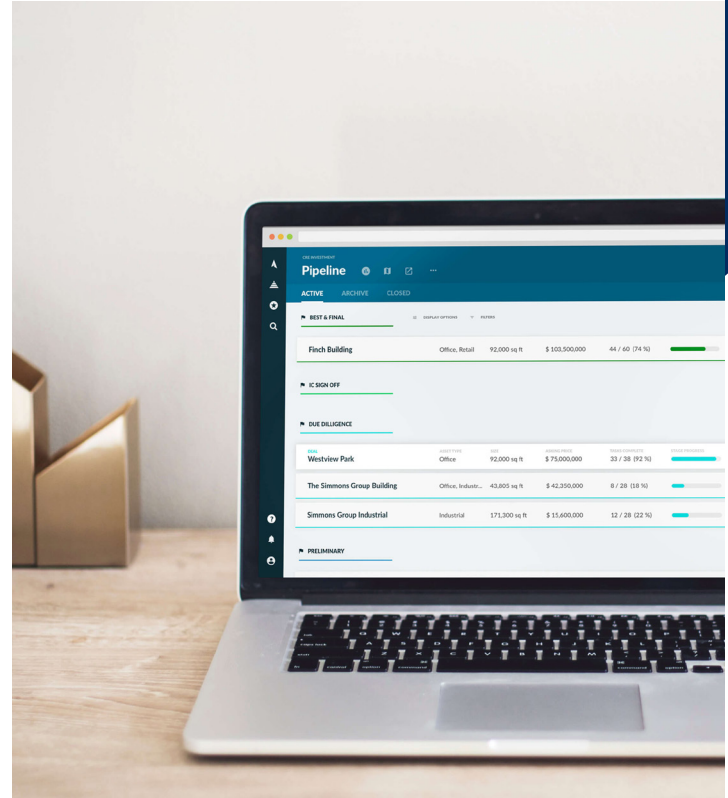

Identify and manage deal risk

- Get visibility into the models being developed to ensure that the right strategies are being modelled.
- Highlight risks and opportunities in a deal.
